

The Washboy system with two bucket sizes on offer, allows the modern tiler to achieve the best possible finish in the shortest time. Buckets are available with a variety of accessories, allowing for ease of progress through all aspects of preparation, to final finishing of the installation.

Washboys

Professional 23 litre washboy including two floor rollers and two squeeze rollers. The bucket has metal bracket supports and is supplied with a Hydro slotted sponge Float. Suitable for washing down tiled areas during grouting.

Product code	Size	Pack quantity
WB23	23 litre	1

WB23

DIY 10 litre Washboy

Complete with one squeeze roller, one Grout Float and a Hydro slotted sponge Float.

Product code	Size	Pack quantity
WB10	10 litre	1

WB10

The Handle

This multi-purpose handle is lined with Velcro to allow for easy interchange between pads with a velour back offering a continuous and resistant adhesive connection.

Product code	Size	Pack quantity
WB11	130 x 270mm	1

WB11

Velour Hydro Sponge Pad

A high quality sponge, sliced in both directions to allow the collection of grout residue over uneven tile surfaces.

Product code	Size	Pack quantity
WB12	150 x 300 x 35mm	1

WB12

Velour Sponge Pad

For cleaning all joints of epoxy and artificial resin.

Product code	Size	Pack quantity
WB13	140 x 280 x 30mm	1

WB13

Velour Foam Rubber Pad

With a fine grain for rough foundation, to achieve a light, rough structure.

Product code	Size	Pack quantity
WB14	140 x 280 x 18mm	1

WB14

Velour Latex Pad

Recommended for working with mineral and synthetic plasters, achieving a very fine surface.

Product code	Size	Pack quantity
WB15	140 x 280 x 20mm	1

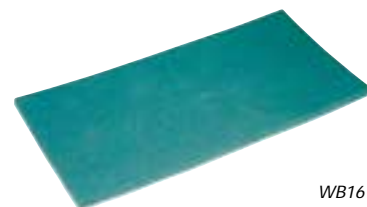

WB15

Velour Rubber Pad – Green

Similar to the black rubber pad but softer for producing a finer surface.

Product code	Size	Pack quantity
WB16	140 x 280 x 8mm	1

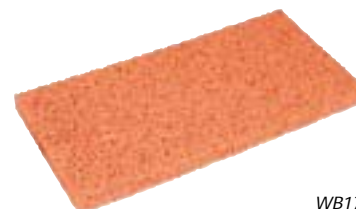

WB16

Velour Rubber Pad – Coarse Foam

Used to obtain a rough surface, necessary for achieving an optimal connection to the next layer of plaster.

Product code	Size	Pack quantity
WB17	140 x 280 x 18mm	1

WB17

All-round cleaning sponge

A high quality sandwich sponge with reversible scouring surface allowing the sponge to be used with The Handle.

Product code	Size	Pack quantity
WB18	280 x 140 x 30mm	1

WB18

Velour Felt Pad

Used to obtain a fine smooth surface.

Product code	Size	Pack quantity
WB19	140 x 280 x 10mm	1

WB19

Velour Rubber Pad – Black

Used for floating grout into joints prior to cleaning off with the Hydro sponge float.

Product code	Size	Pack quantity
WB20	140 x 280 x 8mm	1

WB20

Velour Grinding Mesh

With a mesh grain of 100.

Product code	Size	Pack quantity
WB21	93 x 280mm	1

WB21/22

With a mesh grain of 180.

Product code	Size	Pack quantity
WB22	93 x 280mm	1

Professional Hydro Float

Available in two sizes, slotted in both directions to allow for collection of grout over tiled surfaces.

Product code	Size	Pack quantity
WB5	150 x 290 x 35mm	1
WB6	140 x 280 x 28mm	1

WB5/6

Tile Pointing Float

Soft foam rubber pad for final preparation of plastered surface prior to tiling.

Product code	Size	Pack quantity
WB7	140 x 280mm	1

WB7

Epoxy Float

Firm sponge, slotted in both directions for easy removal of epoxy grout from tiled surfaces.

Product code	Size	Pack quantity
WB8	140 x 280 x 30mm	1

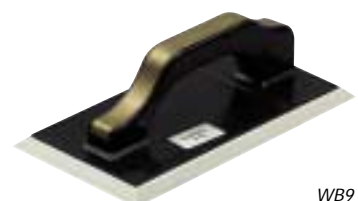

WB8

Epoxy Pointing Float

Ideal for all epoxy and synthetic resin joints, featuring 450 bevel on all edges.

Product code	Size	Pack quantity
WB9	130 x 250mm	1

WB9

Residue Bin

Fits inside the 23 litre washboy and prevents water from becoming excessively soiled when cleaning off pads.

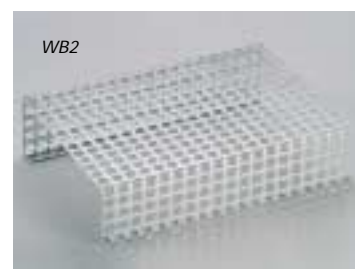

WB1

Product code	Pack quantity
WB1	1

Grille Insert

A galvanised mesh, sits in the 23 litre bucket used for final cleaning once pads have been passed over the rollers.

WB2

Product code	Size	Pack quantity
WB2	280 x 210 x 70mm	1

Castor Wheels
